Ch:4 Marketing Information System.

- MIS and working (Marketing Info. system)
- Marketing Research Process.

→ Working of MIS (chart)

Marketing Environment

Target Market channels Competitors Public macro environment

* Purpose of MIS:

from internal & External sources.

- Assessing: Needed Information (Evaluating)
- Developing: Collecting & processing relevant data.
- Distributing: Delivering the processed info to marketing managers & decision-makers in a timely.

* Steps of MIS:

- Assessing: Identifying Key data requirement to support decision
- Developing: Collecting & organizing relevant data.
- Analyzing: Extracting insights from data.
- Distributing: sharing insights for decision making.

Marketing Information System (MIS)

Obtain info from:

Internal Database (within the company data)

Marketing Intelligence (systematic collection)

Marketing Research (systematic design, collection)

Publicly available info about customer, Resellers etc.

Specific Marketing situation face by organization.

Internal Data

→ Already Exist

Secondary → Already store ho

Primary Data

↓

Marketing Research

Marketing Research: (Why?)

Imp.

Aid in making business related decision.

- Identify opportunities.

- Generate & Refine Actions

Systematic & objective Process.

Marketing Research Steps: (Process)

1 [- Problem / Opportunity Identification & formulation

2 [- Creation of the Research Design

- Choice of Method of Research.

- Selection of the sampling (population representation)

3 [- collection of the Data.

- Analysis of the data.

- writing / presenting → - follow up

Mo Tu We Th Fr Sa Su

Memo No. _____

Date / /

✱ Exploratory Research:

- Research for opportunity.
- Usually on small-scale.

✱ Descriptive Research:

- Already know data.
- Studies are limited to answering who, what, when, where etc.

✱ Causal Research: (cause, effect)

- focus on one variable / causes etc.
- Dependent / ~~the dependent~~ Independent.

✱ Basic Research Methods:

- Survey (~~action~~) obtain public opinions of product.
- Observation (descriptive, monitor respondents' action)
- Ethnographic Research: (specific period of time)
 - ↳ Part of community interact with consumers.
 - ↳ high level Research. (authentic information)

✱ Sampling Plan:

- Sampling Unit
- Sampling Size
- Sampling procedure.

Types — { Probability sample
Non probability sample.

Mo Tu We **Th** Fr Sa Su

Memo No. **4E**

Date **24 / 10 / 2024**

Probability Sample:

Stratified random sample:

Segment → random diff no. of samples choose.

CS "Research Instruments" [Lec: 10]

- Questionnaires. (open-ended, closed-ended, Phrasing)
 unlimited (Explain) / limited answer
- Mechanical instrument. (people meters, checkout scanner)
 ↳ neuro-marketing. (lie detector) rating. shops (sales)
 ↳ high level (books, advance technologies)

Implementing the Research Plan: (step 3)

- ↳ Collecting the Data.
- ↳ Analysis.
- Key issues: (Incorrect selection of sample)
 - ↳ Is the sample representative?
 - ↳ Is data reliable?
 - ↳ Is data valid?
 - ↳ Are the stat tech appropriate?

Reporting of Finding. (step 4)

Distributing & Using Marketing Info.

"Target Marketing & Strategies"

(conventional Marketing)

Lec: 11

Two Basic Approaches:

↳ Marketing Segmentation.

=> Heterogeneous. (her type ~~to~~ needs in every segment).

↳ Total / Mass Market.

=> homogeneous. (Diff requirement in Diff segment)

Marketing Segmentation (Dividing into distinct groups with distinct needs, characteristics or behavior)

Select customers to serve

Decide on a value

segmentation

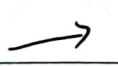

Create value

Differentiation

Target

for targeted

Positioning

customers

Steps in target Marketing (Major)

dividing a market into groups with distinct needs & behavior.

↳ Market Segmentation Purpose / Consumer Similarity / Differences.

↳ Target Market Evaluating & selecting. (segments)

↳ Market Positioning

↳ Creating a unique & desirable position for per product

in the mind of consumers.

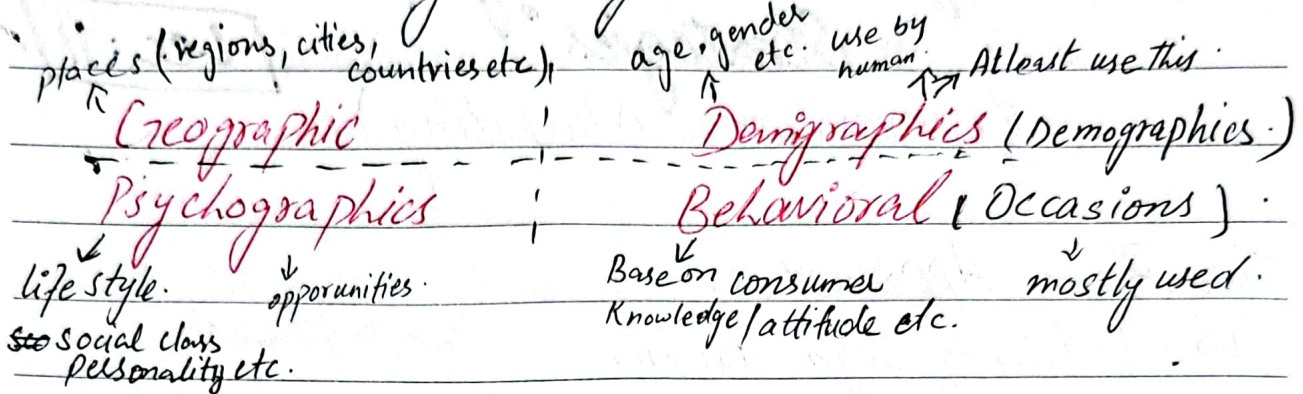

Mo Tu We Th Fr Sa Su

Memo No. _____

Date / /

Segmenting Consumer Markets.

Marketing Segmentation: (chart)

- Measurable** (size, profits of segments can be measured)
- Accessible** (segment must be effectively reached & served)
- Substantial** (segment must be large & profitable enough to serve)
- Differentiable** (Respond Diff to Different Mark - mix elements & Actions)
- Actionable** (must be able to attract & served.)

∴ Break even → (The point jaha profit ^{generate} start hona start ho, After investment.)

Steps in the target Marketing Process

Evaluating Marketing Segments.

It is base on size, growth & competition, alignment with company resources & objectives.

Selecting target Market Segments.

(segment) Selecting the most suitable ones to target.

Memo No.

Date 31 / 10 / 24

Mo Tu We Th Fr Sa Su

Lec: 12.

Target Marketing Strategies Imp

Types:

target broadly.

1. Undifferentiated (mass) Marketing (common needs)
2. Differentiated (segment) Marketing (Marketing mix)
3. Concentrated (niche) Marketing (more effective/efficient)
4. Micromarketing (local or individual Marketing)
 ↙ (limited or specific area) (local / individuals)
 ↘ (city, stores) (one to one, customization)

target narrowly

target small share of one or few large segment or niche
limited resources, Market Knowledge.

"Positioning for Competitive Advantage"

Differentiation and Positioning.

∴ (find diff in your product that other did not notice)

1. Important
2. Distinctive
3. Superior
4. Communicable
5. Preemptive
6. Affordable
7. Profitable

(check if your selected diff. have this 7 points value)
product.
