

**Department of Computer Science &
Information Technology**
Couse Objective
Operating System

Course Information

Course Code: **CS11303**

Credit Hours: **3 (2, 1)**

Lab Hours/Week: **3**

Course Title: **Operating Systems**

Lecture Hours/Week: **2**

Pre-Requisites: **None**

Course Objective

- To discuss the services and the design of an operating system.
- To explain the structure and organization of the file system and memory management.
- To discuss what a process is and how processes are synchronized and scheduled as well as how access to system resources is managed.
- To present the use of system calls for managing processes, memory and the file system.
- To explain the data structures and algorithms used to implement an OS.
- To explain security and protection issues in computer systems.
- To use C and UNIX commands to develop various system programs under Linux to make use of OS concepts related to process synchronization, shared memory, mailboxes, file systems, etc.
